**APPENDIX:**

**Survey Reminders and New Maps**

Thank you to those of you who continue to submit your weekly data relating to COVID-19's impact. We want to emphasize that your weekly responses should include data from the past week only, not aggregate data on your health centers' overall COVID-19 response.

Also, we have extended the weekly deadline for submitting the health center and look-alike COVID-19 surveys. You have until **11:59 p.m. ET today** to submit the survey you received last week.

We know that others are also interested in this data, and so we've recently added [maps of the summarized data](#) to our website, to present the information visually.

Your input helps us better understand—and then respond to—your needs during this ever-changing pandemic. Thank you in advance for helping us help you!
