Integrating Health with DRVS

Why is Integration Such a Big Deal

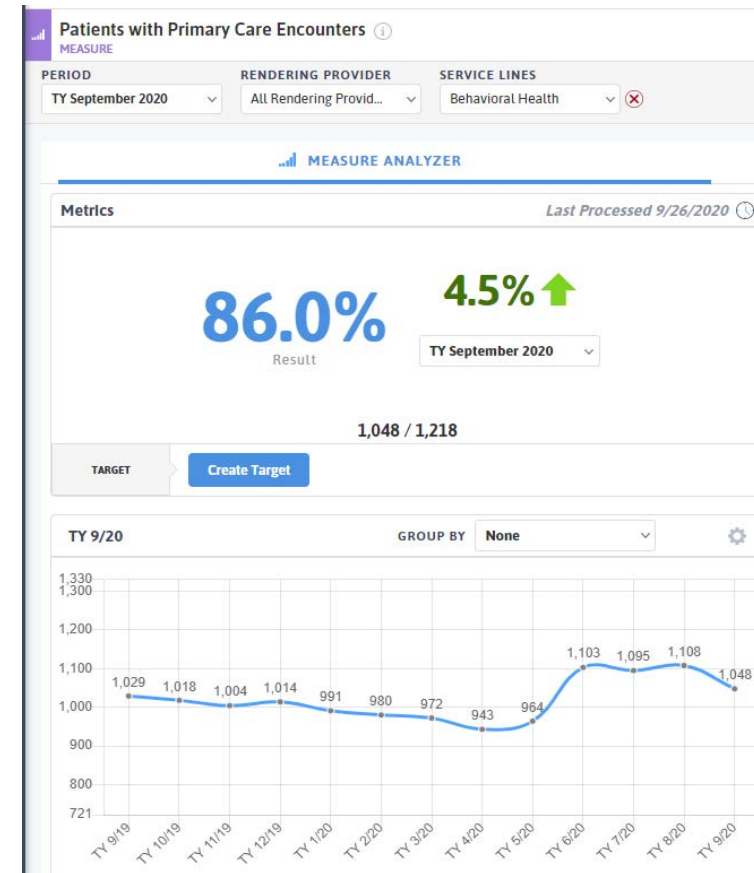

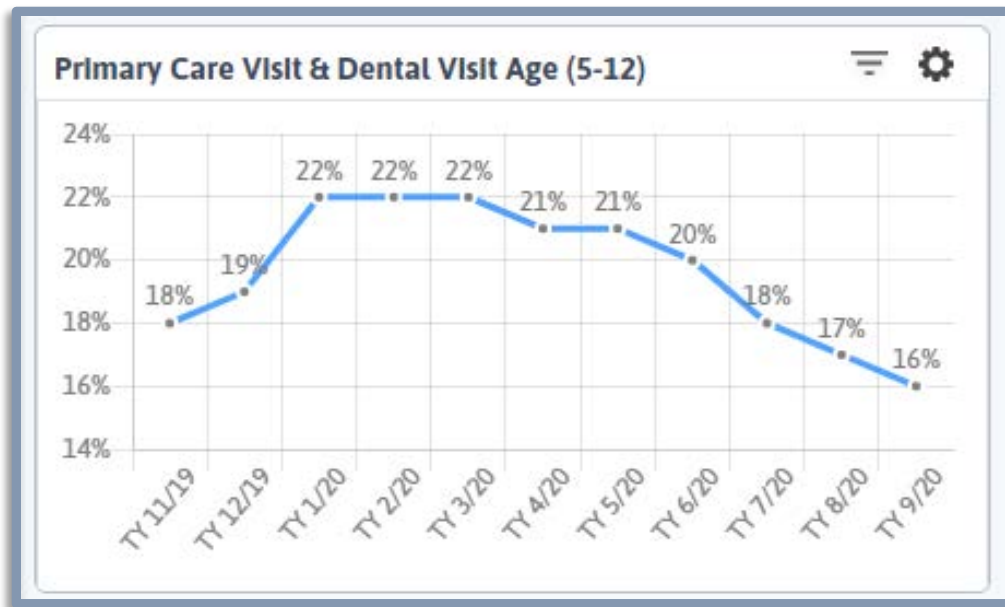

A Pill Won't Fix Everything

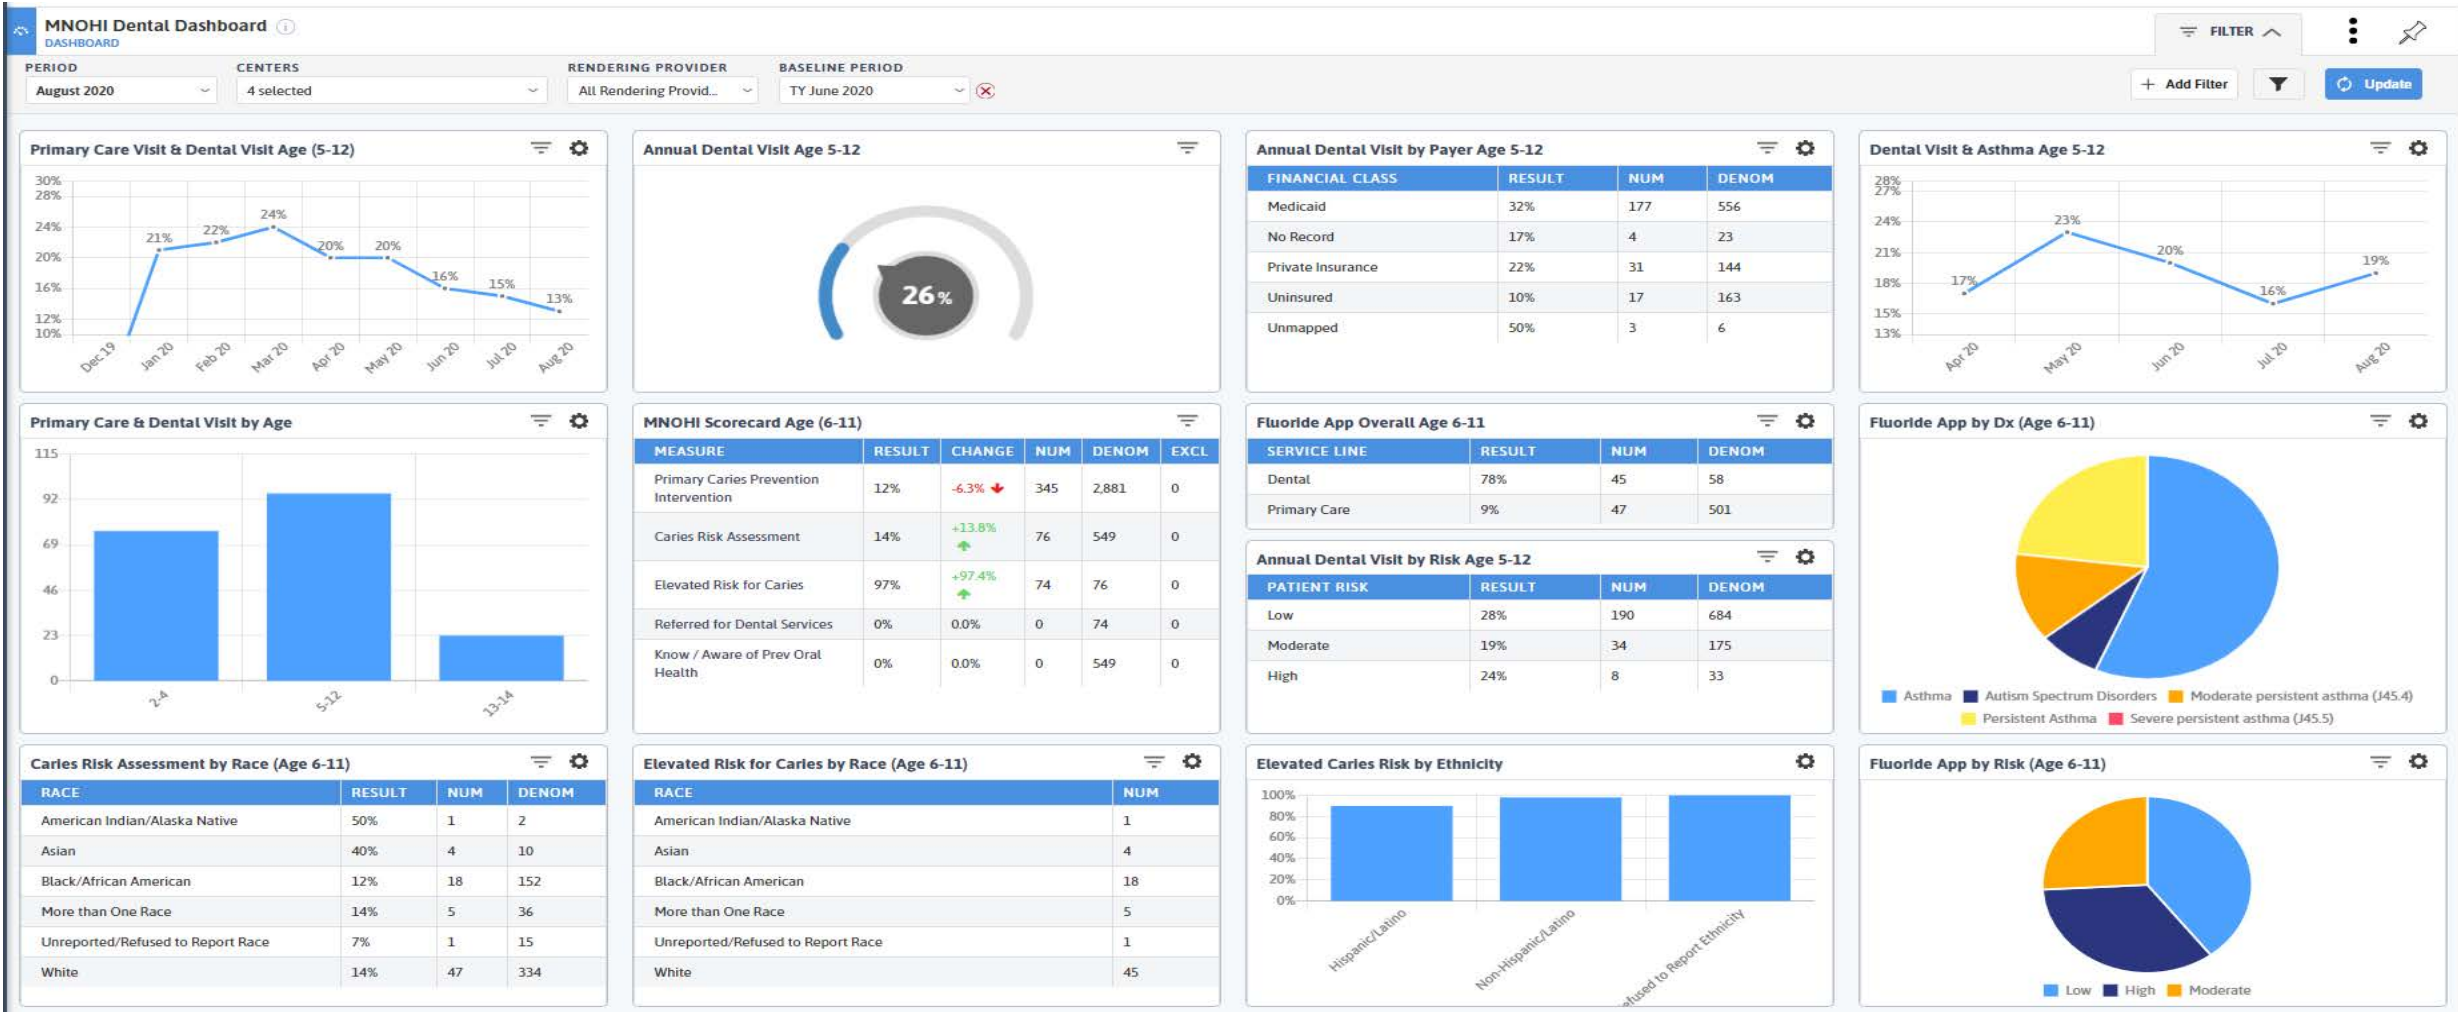

Know Your Numbers

How many of your medical patients are also your dental patients?

How many receive behavioral health services?

Oral Health Integration

Oral Health Integration

MPCA Dental Scorecard (MNOHI) REPORT

PERIOD: TY September 2020 | CENTERS: | RENDERING PROVIDER: All Rendering Provid...

REPORT + CARE GAPS

GROUPING: No Grouping

Improving Dental Health Outcomes

- ER/ED does not provide treatment (pain reduction and antibiotics do not = treatment)
- Long term untreated dental conditions can lead to significant medical conditions

What's next?

- Care Managers & CHW's working across services
- Integration of an outreach tool for text reminders and notices
- Training dental staff to huddle and use the PVP
